Adv. SWE Assignment T4

Kevin Wong (hw2735) Prof. Gail Kaiser

William Pflueger (fwp2108)

Team: Starmen

Part 1 – Demo Details

Occurred on Friday, November 20th at 12pm ET with IA Rohit and all Starmen team members.

The only challenge experienced was that the free tier of Heroku took an extra minute to start up our backend prior to the demo, but this wasn't a major hindrance. During the final demo, we will be sure to start the server up immediately before it is our turn to present.

Part 2 - Codebase

See the following link to view the current codebase: https://github.com/anthonykrivonos/4156-Starmen

See the following link for a tag containing the exact code that was demoed during the initial demo: https://github.com/anthonykrivonos/4156-Starmen/releases/tag/0.1.0

Part 3 - Submissions

See the following link to view all paper assignment submissions: https://github.com/anthonykrivonos/4156-Starmen/tree/main/docs/submissions
